

REDUCE YOUR FACILITY'S SEWER COSTS

Low-flow or clogged flumes can drastically and needlessly increase the monthly sewer cost it requires to operate your facility. **The Patented Valve Assembly (Grease Buster™)** of the Flume Flusher® is easy to install and eliminates the need for manual flushing and maintenance.

This one-time investment in your facility's existing sewer system can save your company money for years to come.

(864) 303.4771

DON'T LET YOUR MONEY GO DOWN THE DRAIN!

Easy install within your existing sewer line.

HOW IT WORKS:

1 Obstructed Sewer Line

2 Flume Flusher® In Action

3 Sewer Line Cleared

As flow decreases, Flume Flusher's® mounted nozzle is triggered to spray and remove obstructions which can decrease your facility's sewer bill while eliminating the need for maintenance.
